Managed IT Services

Taking Your Business To The Next Level

WWW.RAPIDRCMSOLUTIONS.COM

Remote IT Support Services

World-class remote IT support, provided by a team of specialist engineers. We leverage remote IT support to, **resolve IT problems & help set up with workstations, printer & scanners, mobile devices, key applications, and networks**.

With Our Tech - Consider IT Solved

We help save you thousands of dollars. With our award-winning remote IT support, you're in safe and capable hands.

.

Server Management Support

Our remote server services include **full server audit, continuous monitoring of event logs, problem resolution, security audits, data backup and patch management**.

Serving The Server That Serves You

Our Server Engineers have in-depth experience in managing remote servers on both **Windows and Linux platforms.**
IT Security & Compliance

Vulnerable network and non-compliance can lead to business reputation, data and financial loss.

IT Security Is Critical To Business Success

We ensure a holistic risk driven approach for organizations with our solutions in the areas of identity and access governance, **data protection, risk & compliance, threat management and mitigation** (application, network & mobile) and **cyber security monitoring & management.**

VoIP Phone System (PBX)

Traditional phone service is a pretty old technology and expensive one for the business. VoIP Phone Server is the need of modern businesses.

Experience Modern HD Quality Calls

We provide hosted PBX deployment service that gives you the real-time voice and collaboration experience with benefit of advanced calling features such as **IVRs, Announcement, unlimited extensions, Voicemail, Queues and advanced call reporting** for staff performance tracking all while saving you time and money with one low monthly cost.

IT Consultancy & Digital Marketing

Our strategic IT consulting will help you **automate and digitalize operations & Marketing, optimize the software portfolio, and implement the latest technologies**.

Analysis, Solutions, Results!

We run the assessment for your tech infrastructure, list out stale and EOL technologies & help upgrade/migrate them for you.

Website & Mobile App Development

Our software development services include **design and development, testing, and support and maintenance of websites and mobile apps**. Along with that, our experienced web app developers also help you in technology consultation, modernizing legacy architectures, and migrating to new web architecture.

You'll Really Love It ❤️
